PLANAM STRETCHLINE

# STYLISHLY FLEXIBLE AT WORK AND LEISURE

The PLANAM Stretchline collection is the perfect choice for anyone who is on the move a lot and doesn't want to feel restricted. The fabric mix with a high proportion of reinforced cotton and elastane guarantees fit and comfort.

With PLANAM Stretchline, we now have a collection completely made of 2-way stretch. The flexible material offers ample freedom of movement as well as lightweight comfort.

PLANAM Stretchline offers classic models in stylish material combinations that are impressive for both work and leisure. The range is enhanced by timeless colours, which make a statement with elements in contrasting colours.

# STANDARDS & CERTIFICATION

The OEKO-TEX® Standard 100 is an independent testing and certification system for raw, intermediate and end products for textiles from all stages of processing. Examples of certifiable articles are raw and dyed/refined yarns, raw and dyed/refined woven and knitted fabrics, ready-made articles (garments of all types, home textiles, bedding, terry towelling, toys made of textiles and many others).

## Criteria

Tests for harmful substances cover:

- substances banned by law
- substances regulated by law
- chemicals that are known to be potentially harmful to health (but are not yet regulated by law)
- healthcare parameters

In their entirety, the requirements go well beyond existing national legislation.

## Why OEKO-TEX®?

The OEKO-TEX® Standard 100 was developed in the early 1990s as a response to the need of consumers and the general public for textiles that do not pose a risk to health. Negative headlines such as "Poisons in textiles" were widespread at the time, labelling all chemicals used in the production of textiles as negative and harmful to health. Fashionable colours, easy care, long life and many other functional properties are demanded of textiles today and are, to some extent, and depending on their intended use (e.g. for professional and protective clothing), quite indispensable.

## UV protective clothing with integrated sun protection

The largest organ of the human body is the skin, and it is exposed to great danger in summer. UV rays from the sun can increase the risk of skin cancer. Standard textiles are radiolucent, providing insufficient protection.

PLANAM's UV-protective clothing gives guaranteed certified safety.

Awarded UV protection certificate "PROTECT 80" this range guarantees maximum prevention. Just like for sunscreens, the figure indicates the protection factor for safely spending longer in the sun. Our PLANAM models allow the wearer to remain in the sun 80 times longer than those without protection. With their integrated sun protection factor, the finished garments provide the skin with optimum protection. Those with sensitive skin can stay in the sun longer without having to cover themselves in sunscreen. It is important to know the individual skin type in order to determine the individual's protection time (length of possible exposure to the sun without risk of skin damage). The stated UV protection factor (e.g. Protect 80) gives the factor by which the individual's protection time can be extended just by wearing these textiles.

# SERVICE

## The first impression is the key

The right work clothing is always a calling for your company and is also used as free advertising space with your logo. We bring your message to a wider audience – with the PLANAM finishing service.

### Infinite variety

There are thousands of variations and options to personalize the PLANAM products and create an individual design. Here we are showing you a small selection of what is possible, in order to inspire you and give you ideas. Please contact us for expert advice to find out which type of finishing fits most optimally with our products. You explain your requirements and we will make them happen in as short time as possible.

### Small order or large production runs

It doesn't matter whether it is a small trade business with 5 employees that needs to be equipped with CI Clothing or a large industrial company with several hundred employees. We can create up to 1000 emblems a day for you at the Herzebrock-Clarholz site.

### Finishing of Personal Protective Equipment (PPE)

It is particularly important in relation to the finishing of Personal Protective Equipment (PPE) that the type of finish added is specifically suited to the PPE type examination certificate and is recertified accordingly. Here to, PLANAM offers a multitude of certified options for attaching your company logo on the PPE.

For any modification to the PPE which is not recertified, the type-examination certificate will no longer be valid and the complete protection of the wearer can no longer be guaranteed.

Available in any colour and with vast design options for a size of max. 360 x 360 mm.
